

How to **Control** Your Ai Image.

For **beginners...**

Before we get started...

Midjourney is a **powerful** AI art generator.

I use it **create** my carousel covers.

But how can you **build your own narrative?**

Like Chatgpt, the **art is in the prompt.**

We'll go through a few **simple ways** to create awesome variations **OF YOURSELF.**

***Disclaimer

I am a Midjourney **NOVICE**.

(Probably like **you**)

And these images make me look **way cooler** than I am.

Sorry, I was having **fun**.

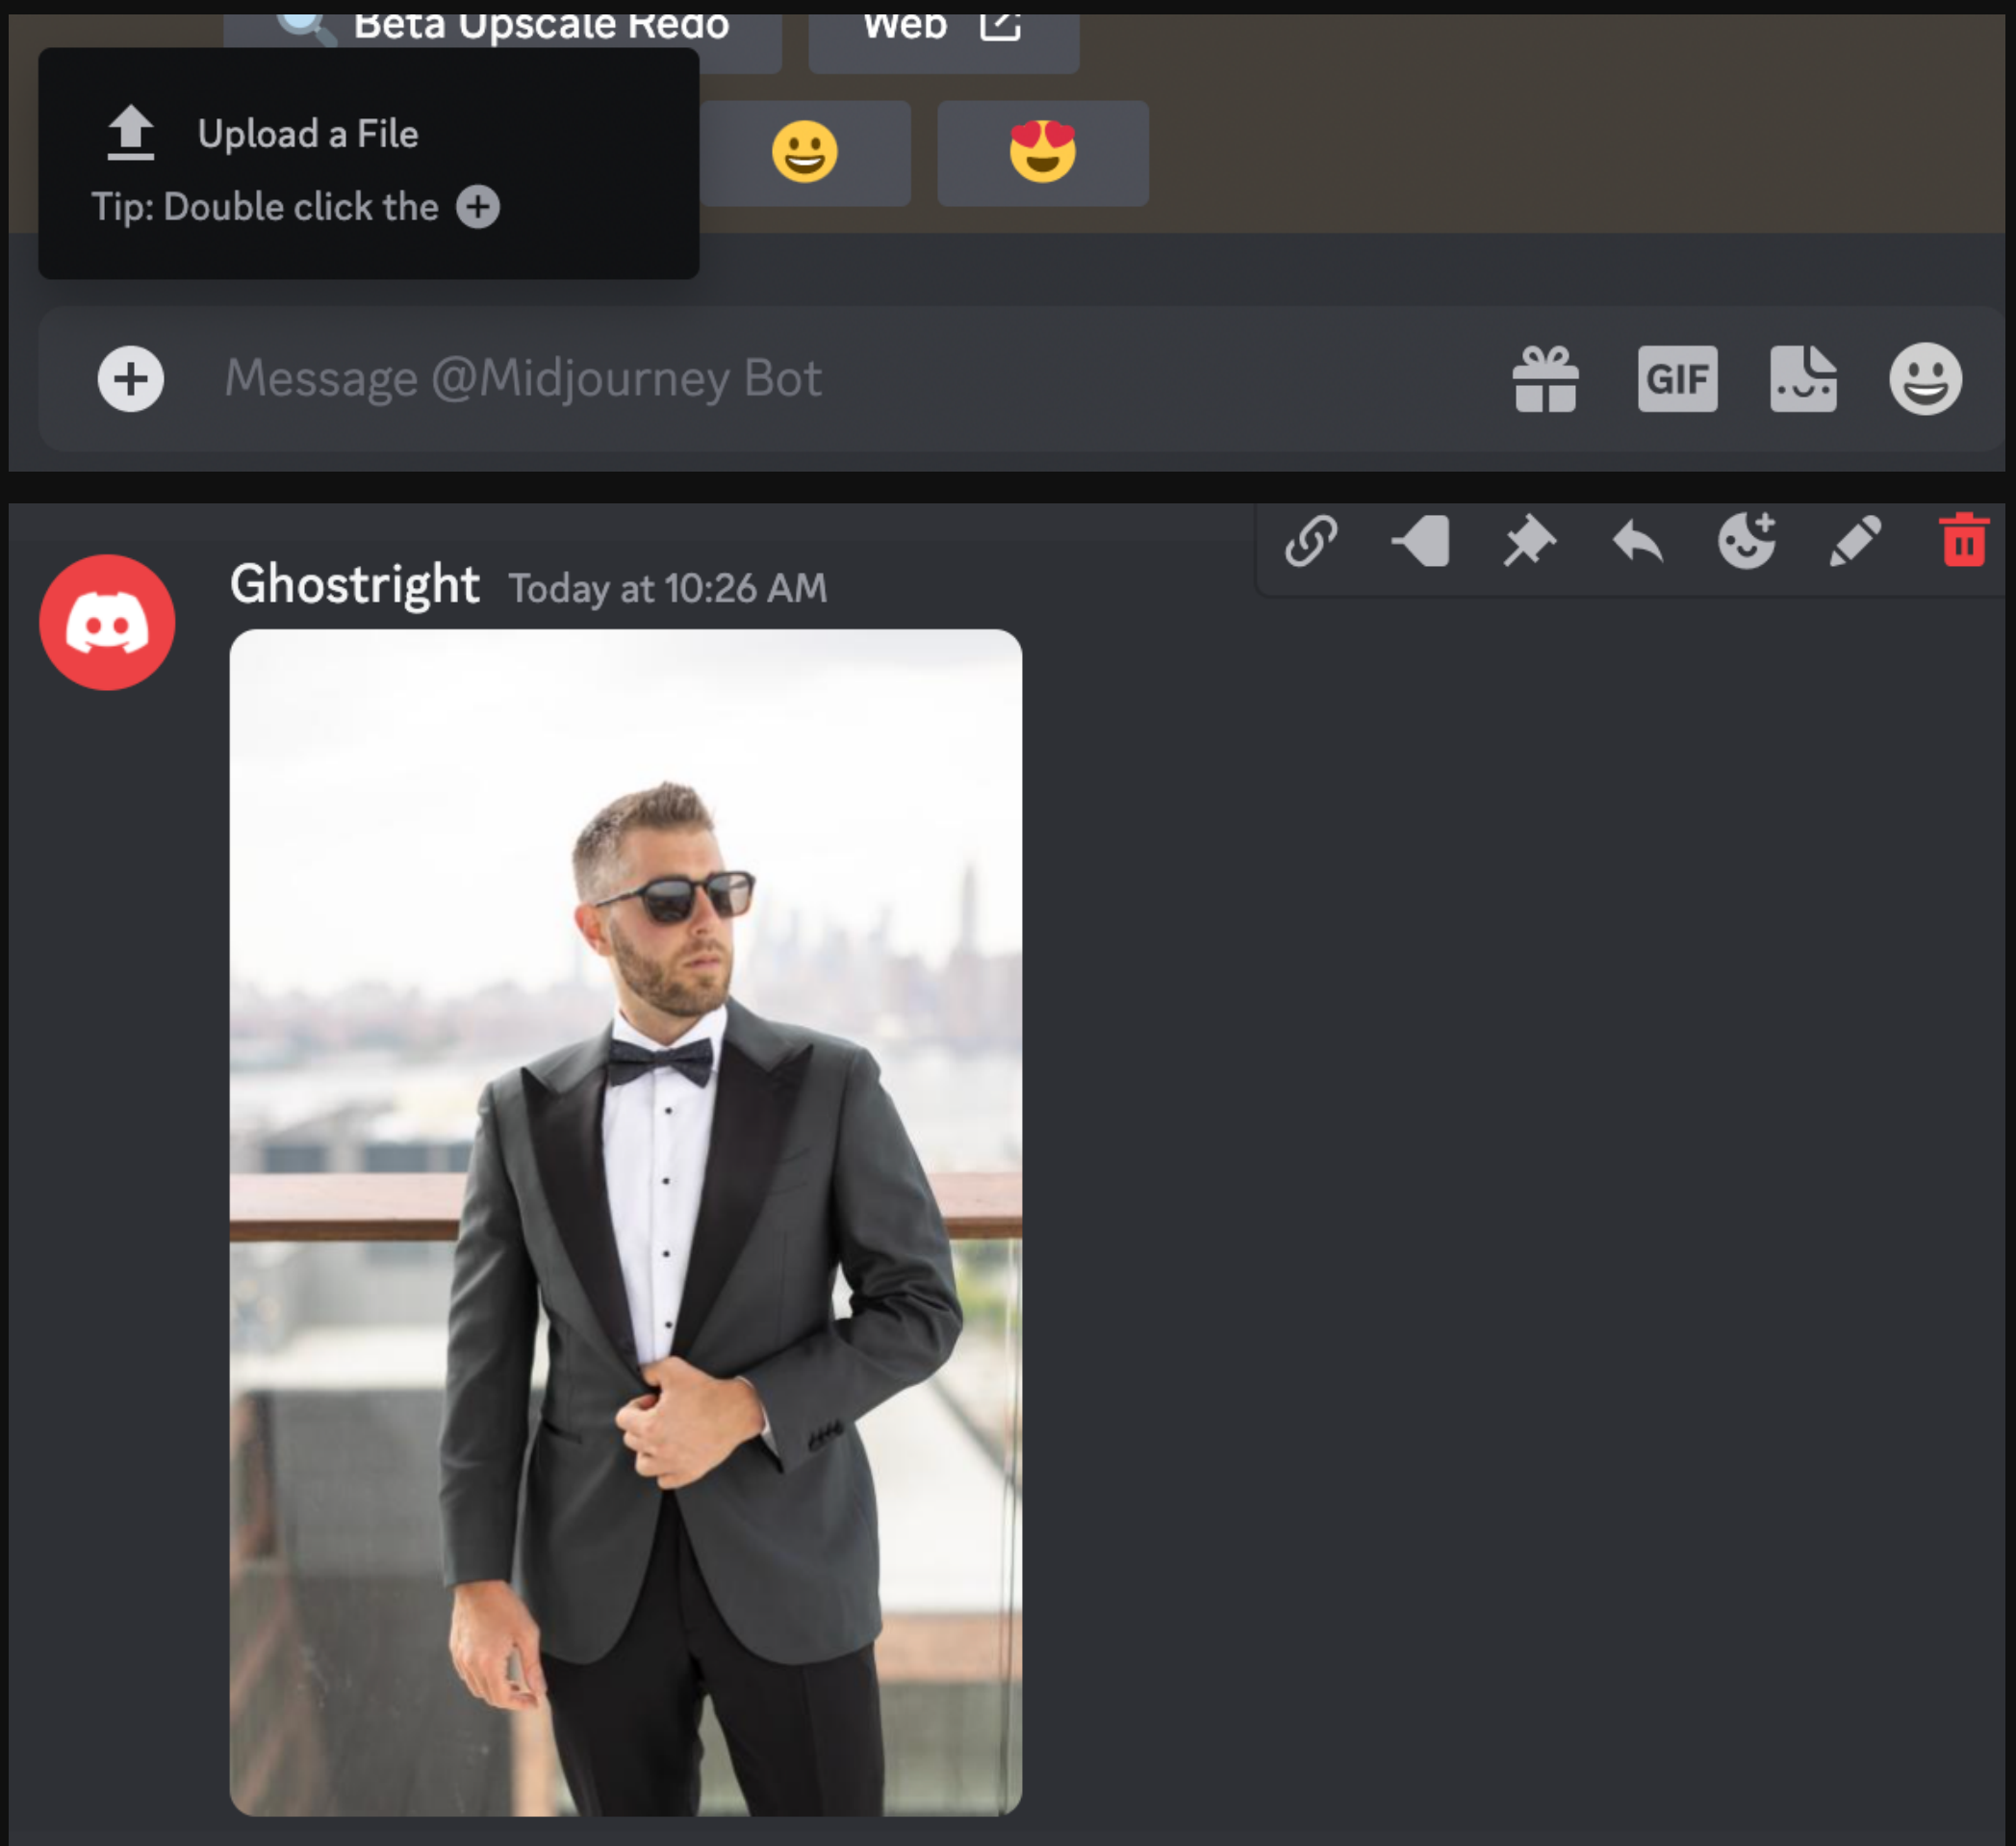

We'll use my **Linkedin photo** for the prompts as context.

Let's **dive in**.

Upload Yourself.

Open Discord and hit the (+) in the prompt window.

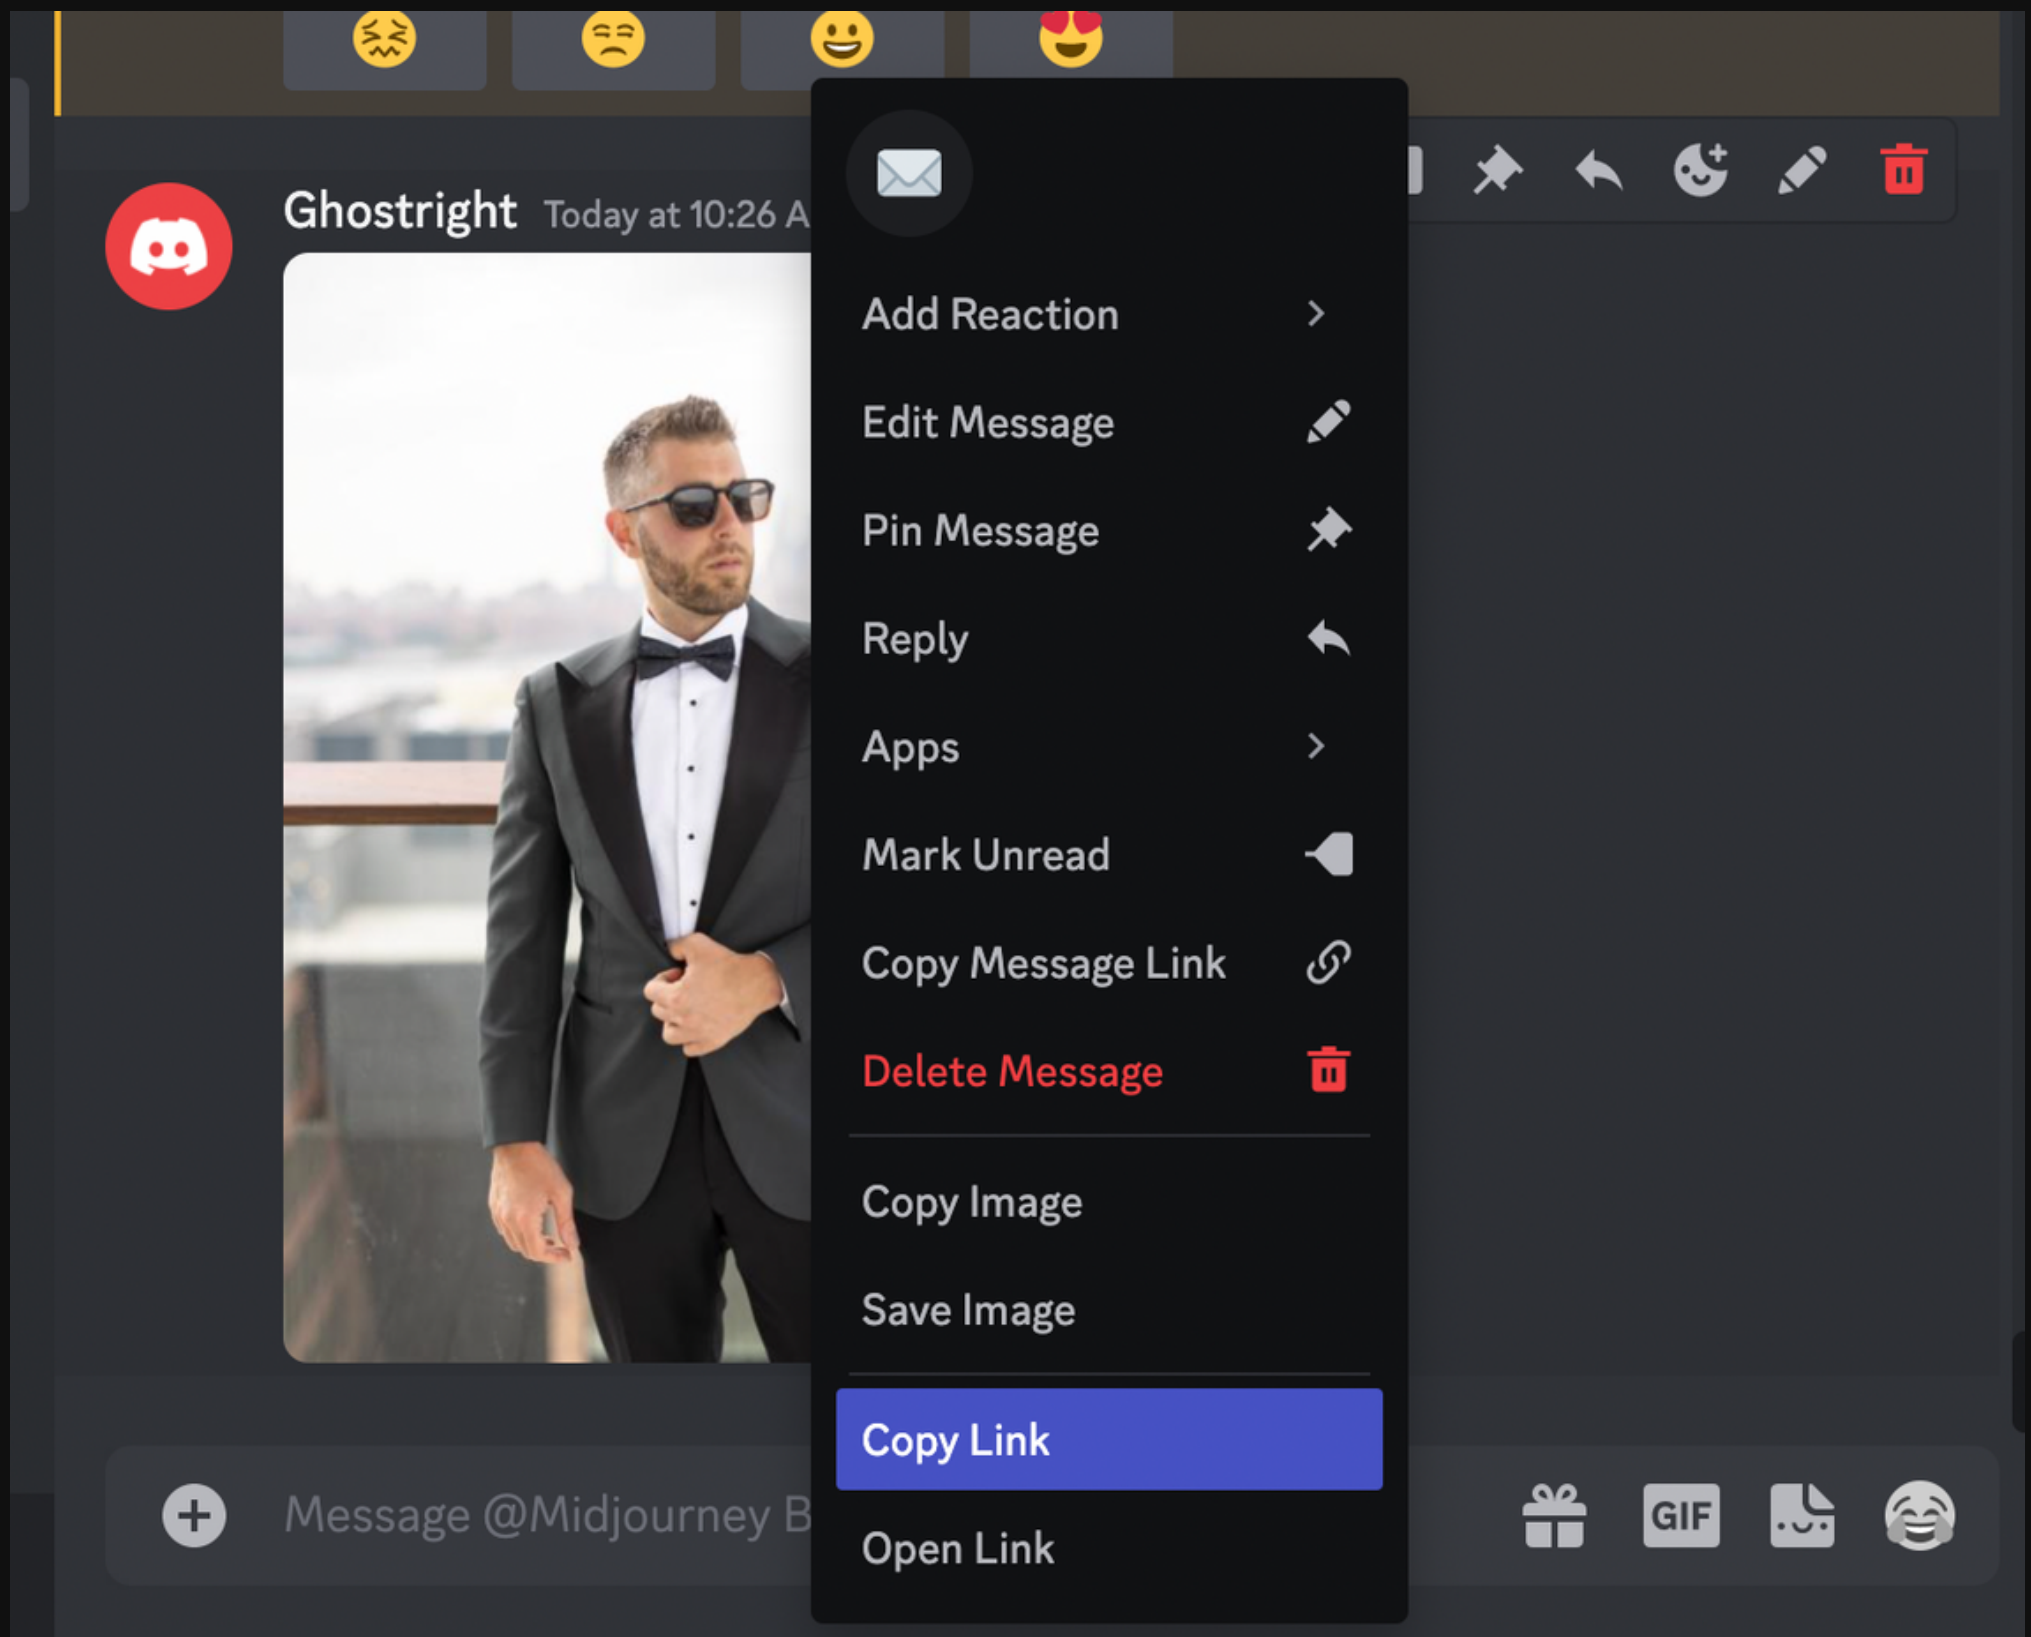

Choose an image...and press enter.

Copy Image Link.

Right click and select "copy link."

Now it's time to prompt.

Prompt Correctly.

Type: `/imagine` (to create the prompt)

Use "<" and ">" to bracket the image link.

Sample Prompt: `/imagine <image link>`

 Ghostright Today at 10:26 AM

prompt The prompt to imagine

 `/imagine` 

prompt `<https://cdn.discordapp.com/attachments/1072535388373127209/1076525070891110420/wedding-1141.jpg>`

Now the fun starts...

Get creative.

Basic Prompt.

Prompt: <image link> black background, vibrant colors, hyper realistic 8k

Not bad...Let's go deeper.

Basic Prompt (Iteration).

Prompt: <image link> surrealism, vibrant colors, black background, hyper realistic 8k

Cool...Let's get detailed...

James Bond.

Prompt: <image link> as james bond, standing in front of a 1960s ferrari at the coliseum in Rome, sunset lighting, hyper realistic 8k

**Like I said...These are cooler
than I am.**

Now, let's test the capabilities.

Pixar Character.

Prompt: <image link> as a pixar character, exaggerated features

Fortnite Character.

Prompt: <image link> as a fortnite character, 8k

Marvel Villain.

Prompt: <image link> as a comic book villain, black background ar 3:2

A little exaggerated.

(But you get the point)

Let's try some art styles.

Dadaism.

Prompt: <image link> dadaism

Impressionist.

Prompt: <image link> impressionist

Again, mind. blown.

**A few more for good measure
and we'll wrap it up.**

Elderly.

Prompt: <image link> as an old man.

Catalog.

Prompt: <image link> men's fashion wear, item variation catalog

Quick Tips.

Use a clear high-res image of your self.

Try to find a photo of just you.

More people = lower quality output.

Busy background photos will get picked up by the AI.

Quick Tips.

The AI iteration is not perfect, but it's close enough.

Some first variations miss.

Iterate until you get something that resembles you.

The more detail you add to the background, the less defined the image of yourself will be.

Go have some fun...

That's it.

Thanks for reading another carousel.
